# Safety Data Sheet

## Particleboard VESTA NAF

### Section 1: Identification

<table>
<thead>
<tr>
<th>Product Name</th>
<th>• Particleboard VESTA NAF</th>
</tr>
</thead>
</table>
| Synonyms     | • NAF Particleboard; NAUF Particleboard  
This SDS is applicable for all Arauco North America Duraflake VESTA NAF particleboard manufactured at the sites noted below including NAF panels laminated with thermally fused laminate (TFL)/melamine. |
| Product Description | • A wood product composed of wood and cured synthetic resins |
| Recommended use | • Building Materials – Decorative, Furniture, General Construction |
| Manufacturing Sites | • Albany, OR |
| Supplier | • ARAUCO North America  
5901-B Peachtree Dunwoody Rd NE, Suite 500  
Atlanta, GA 30328  
USA  
http://www.arauco-na.com/ |
| Telephone (General) | • 800-261-4890 |
| Suppliers | • **Canadian Regional Center**  
80 Tiverton Court, Suite 701  
Markham L3R 0G4  
Canada  
Tel: (905) 475-9686  
Fax: (905) 475-3827  
**US Western Regional Center**  
2550 NE Old Salem Road  
Albany, OR 97321  
Tel: (888) 650-6302  
Fax: (541) 928-4116 |
| | • **US Eastern Regional Center**  
515 River Crossing Drive, Suite 110  
Fort Mill, SC 29715  
Tel: (877) 273-7680  
Fax: (800) 808-1454 |
Section 2: Hazard Identification

United States (US)
According to: OSHA 29 CFR 1910.1200 HCS

Classification of the substance or mixture
OSHA HCS 2012

- This product is generally an article but is regulated under OSHA for the release of wood dust during mechanical operations releasing dust. The free formaldehyde levels are below OSHA reporting requirements. The classifications below are based upon wood dust.

Skin Irritation 2
Skin Sensitization 1
Eye Mild Irritation 2B
Respiratory Sensitization 1
Carcinogenicity 1A
Specific Target Organ Toxicity Single Exposure 3: Respiratory Tract Irritation
Combustible Dust

Label elements
OSHA HCS 2012

DANGER

Hazard statements • Causes skin irritation
May cause an allergic skin reaction
Causes eye irritation
May cause respiratory irritation
May cause allergy or asthma symptoms or breathing difficulties if inhaled
May cause cancer via inhalation of respirable dust
May form combustible dust concentrations in air.

Precautionary statements

Prevention • Obtain special instructions before use.
Do not handle until all safety precautions have been read and understood.
Do not breathe dust.
Contaminated work clothing should not be allowed out of the workplace.
In case of inadequate ventilation wear respiratory protection.
Wash thoroughly after handling.
Do not eat, drink or smoke when using this product.
Use only outdoors or in a well-ventilated area.
Wear protective gloves/protective clothing/eye protection.

Response • IF ON SKIN: Wash with plenty of soap and water.
If skin irritation or rash occurs: Get medical advice/attention.
Take off contaminated clothing and wash it before reuse.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention.
IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in
a position comfortable for breathing. If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician. IF exposed or concerned: Get medical advice/attention.

Storage/Disposal • Store away from water and ignition sources. It is recommended to store the product in an area with relative humidity and temperature that approximates end use conditions. Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Other hazards OSHA HCS 2012 • This product is not considered hazardous under the U.S. OSHA 29 CFR 1910.1200 Hazard Communication Standard.

Other information

NFPA • Health = 1, Flammability = 1, Reactivity = 0, Special Information = None
HMIS • Health = *1, Flammability = 1, Reactivity = 0, PPE = E
* Chronic Health Hazard
E = Safety glasses, gloves, and a dust respirator

Section 3 - Composition/Information on Ingredients

Mixtures
These wood products are composed of wood and cured amino resins. See Section 8 for exposure limits discussion.

* Wood contains trace amounts of various chemicals present in the environment which are absorbed by trees through natural growth. A comprehensive listing of species is available upon request.

All products produced at Arauco NA mills are certified to the Composite Panel Association's Eco-certified Composite (ECC) Sustainability Standard which requires adherence to the strict California Air Resources Board (CARB) Composite Wood Formaldehyde Air Toxic Control Measure (CARB ATCM 93120.12).

CALIFORNIA RESIDENTS: This product contains one or more chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm.

Section 4: First-Aid Measures

Description of first aid measures

Inhalation • IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.

Skin • IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse.

Eye • IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Ingestion • Health effects are not known or expected to occur under normal use. Low hazard for usual industrial or commercial handling.

Most important symptoms and effects, both acute and delayed
• Refer to Section 11 - Toxicological Information.
Section 5: Fire-Fighting Measures

Extinguishing media

Suitable Extinguishing Media
• SMALL FIRES: Dry chemical, CO2, water spray or regular foam.
  LARGE FIRE: Water spray, fog or regular foam.

Unsuitable Extinguishing Media
• No data available

Firefighting Procedures
• No special procedures. Fire-fighting procedures for wood products are well known.

Special hazards arising from the substance or mixture

Unusual Fire and Explosion Hazards
• NAF Particleboard is not an explosion hazard. Sawing, sanding, or machining NAF Particleboard could result in the by-product wood dust. Wood dust may present a strong to severe explosion hazard if a dust cloud contacts an ignition source.
• Airborne concentrations of 40 grams per cubic meter are often used as the lower explosive limit (LEL) for wood dusts. OSHA interprets the explosive level as having no visibility within five feet or less.

Hazardous Combustion Products
• Burning of NAF Particleboard can result in carbon dioxide, carbon monoxide, oxides of nitrogen, aldehydes, cyanides and other hazardous gases and particles.

Section 6 - Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Personal Precautions
• Do not breathe dust.

Emergency Procedures
• No emergency procedures are expected to be necessary if material is used under ordinary conditions as recommended.

Environmental precautions
• No known significant environmental effects.

Methods and material for containment and cleaning up

Containment/Clean-up Measures
• Not applicable for product in purchased form. Dust generated from sawing, sanding, drilling or routing this product may be vacuumed or shoveled for recovery or disposal. Wood dust clean-up and disposal activities should be accomplished in a manner to minimize creation of airborne dust.

Section 7 - Handling and Storage

Precautions for safe handling

Handling
• No special precautions for handling product. Use good safety and industrial hygiene practices. Minimize dust generation and accumulation. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces.

Conditions for safe storage, including any incompatibilities

Storage
• Avoid storage where exposure to water could occur or near a source of ignition. It is recommended to store the product in an area with relative humidity and temperature that approximates end use conditions. Keep away from sources of ignition - No Smoking.

Incompatible Materials
• Keep away from ignition sources.
Section 8 - Exposure Controls/Personal Protection

Control parameters

Exposure Limits/Guidelines • No data available.

<table>
<thead>
<tr>
<th>Exposure Limits/Guidelines</th>
<th>ACGIH</th>
<th>NIOSH</th>
<th>OSHA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Result: Wood dust TWAs</td>
<td>1 mg/m3 TWA as Wood dust, all soft and hard woods</td>
<td>1 mg/m3 TWA as Wood dust, all soft and hard woods</td>
<td>15 mg/m3, total dust (5 mg/m3, respirable fraction) (as nuisance dust)</td>
</tr>
</tbody>
</table>

Exposure controls

Engineering Measures/Controls • Adequate ventilation systems as needed to control concentrations of airborne contaminants below applicable threshold limit values. Due to the explosive potential of wood dust when suspended in air, precautions should be taken during sanding, sawing or machining of wood products to prevent sparks or other ignition sources in ventilation equipment. Use of totally enclosed motors is recommended.

Personal Protective Equipment

Pictograms •

Respiratory • Use of a NIOSH/MSHA approved dust respirator is recommended where airborne dust levels exceed appropriate PELs and TLVs.

Eye/Face • Wear safety glasses.

Hands • Wear protective gloves - Rubberized cloth, canvas or leather gloves.

Skin/Body • Wear long sleeves and/or protective coveralls.

General Industrial Hygiene Considerations • Practice good housekeeping and avoid creating/breathing dust. Do not allow dust to collect. Maintain, clean, and fit test respirators in accordance with OSHA regulations.

Environmental Exposure Controls • No data available

### Section 10: Stability and Reactivity

#### Reactivity
- The product is stable.

#### Chemical stability
- Stable

#### Possibility of hazardous reactions
- Hazardous polymerization not indicated. Hazardous polymerization will not occur.

#### Conditions to avoid
- Exposure to water, ignition source, high relative humidity and high temperature.

#### Incompatible materials
- Incompatible Materials: Acids (strong), Oxidizers (strong)

#### Hazardous decomposition products
- Hazardous decomposition may occur Thermal and/or thermal oxidative decomposition can produce irritating and toxic fumes and gases, generating carbon oxides, nitrogen oxides, HCN, aldehydes and organic acids.
Section 11 - Toxicological Information

Information on toxicological effects

Other Material Information

- Toxicological impacts expected to be minimal for products in purchased form. Individual component information is provided below if available.

Target Organs

- Skin/Dermal, Lungs, Respiratory System

Route(s) of entry/exposure

- Inhalation, Skin, Eye

Medical Conditions Aggravated by Exposure

- Dusts may aggravate asthma or other respiratory disorders.

Potential Health Effects

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs include:

Inhalation

Acute (Immediate)
- May cause respiratory irritation.

Chronic (Delayed)
- Repeated and prolonged exposure may cause cancer. Repeated and prolonged exposure may cause sensitization of the respiratory system.
Skin
Acute (Immediate) • May cause irritation.
Chronic (Delayed) • Repeated and prolonged exposure may cause sensitization.

Eye
Acute (Immediate) • May cause irritation.
Chronic (Delayed) • No data available.

Ingestion
Acute (Immediate) • Under normal conditions of use, no health effects are expected.
Chronic (Delayed) • Under normal conditions of use, no health effects are expected.

Carcinogenic Effects • Wood dust is listed by NTP known to be a Human Carcinogen (10th Report), IARC Monographs: Wood dust, Group 1 - IARC Group 1: Carcinogenic to humans; sufficient evidence of carcinogenicity. This classification is primarily based on studies showing an association between occupational exposure to wood dust and adenocarcinoma of the nasal cavities and paranasal sinuses. IARC did not find sufficient evidence of an association between occupational exposure to wood dust and cancers of the hypopharynx, oropharynx, lymphatic and hematopoietic systems, lungs, stomach, colon or rectum.

Section 12 - Ecological Information

Toxicity
• No information available at this time. As with all foreign substances do not allow to enter the storm drainage systems. These wood products are not expected to pose an ecological hazard as a result of their intended use.

Persistence and degradability
• No data available

Bioaccumulative potential
• No data available

Mobility in Soil
• No data available

Section 13 - Disposal Considerations
Waste treatment methods

**Product waste**
- Burn in a municipal incinerator. Dispose of in an approved landfill. Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

**Packaging waste**
- No data available

GHS Product Hazard Label

Terra Particleboard (NAF)
According to OSHA 29 CFR 1910.1200 HCS

DANGER

This product is generally an article but is regulated under OSHA for the release of wood dust during mechanical operations releasing wood dust. No adverse health effects are expected if the product is handled in accordance with the product label and the product Safety Data Sheet. Symptoms or effects that may arise if the product is mishandled and overexposure occurs include:

Causes skin irritation.
May cause an allergic skin reaction.
Causes eye irritation.
May cause respiratory irritation.
May cause allergy or asthma symptoms or breathing difficulties if inhaled.
May cause cancer via inhalation of respirable dust.
May form combustible dust concentrations in air.

Obtain special instructions before use.
Do not handle until all safety precautions have been read and understood.
Do not breathe dust.
Contaminated work clothing should not be allowed out of the workplace.
In case of inadequate ventilation wear respiratory protection.
Wash thoroughly after handling.
Do not eat, drink or smoke when using this product.
Use only outdoors or in a well-ventilated area.
Wear protective gloves/protective clothing/eye protection.

IF ON SKIN: Wash with plenty of soap and water.
If skin irritation or rash occurs: Get medical advice/attention.
Take off contaminated clothing and wash it before reuse.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.
Continue rinsing.
If eye irritation persists: Get medical advice/attention.
IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.
If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician.
IF exposed or concerned: Get medical advice/attention.

Store away from water and sources of ignition. It is recommended to store the product in an area with relative humidity and temperature that approximates end use conditions.
Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.
