GOODFELLOW (G)

HEAD OFFICE 225 Goodfellow Street Delson, Quebec J5B 1V5 Canada Toll-Free Canada: 1-800-361-6503 Tel.: 450-635-6511 Fax: 450-635-3729 info@goodfellowinc.com www.goodfellowinc.com PRESIDENT'S REPORT TO THE SHAREHOLDERS

In Q2 2022, Goodfellow realized \$185 million in revenue with net earnings of \$13 million

or \$1.46 per share, as compared to \$186 million and \$14.0 million or \$1.63 per share in the

same quarter of 2021. While being slightly lower than for the same quarter last year,

these results continue to be at historically high levels for the Company.

By delivering a well-diversified sales mix in the second quarter, softening demand in

certain regions was offset by increases in others. Sales volumes were significantly up in

distribution of flooring and building materials while relatively flat in value-added lumber

and other specialty items.

**Complex Conditions** 

The increasingly stressed geopolitical and economic realities in Canada and the US

added further complexity to existing challenges such as spiking inflation, rising interest

rates, supply chain disruptions and labour shortages.

It will be essential to closely monitor inflation and consumer behaviour, as well as tightly

control overhead costs and inventory.

Despite these complexities, Goodfellow's balance sheet remains strong providing a solid

foundation to continue investing in its operational efficiency and capabilities.

Sincerely,

Patrick Goodfellow

President and Chief Executive Officer

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

The following Management's Discussion and Analysis ("MD&A") and Goodfellow Inc. (hereafter the "Company") interim consolidated financial statements were approved by the Audit Committee and the Board of Directors on July 7, 2022.

The MD&A should be read in conjunction with the consolidated financial statements and the corresponding notes for the years ended November 30, 2021 and November 30, 2020.

The MD&A provides a review of the significant developments and results of operations of the Company during the six months ended May 31, 2022 and May 31, 2021.

The interim consolidated financial statements ended May 31, 2022 and May 31, 2021 are prepared in accordance with International Financial Reporting Standards ("IFRS").

All amounts in this MD&A are in Canadian dollars unless otherwise indicated.

In addition, in this Management's Discussion and Analysis, we also use non-IFRS financial measures for which a complete definition is presented below and for which a reconciliation to financial information in accordance with IFRS is presented in the section "Non-IFRS Financial Measures" and in Note 15 "Segmented Information and Sales" to the unaudited interim consolidated financial statements for the six months ended May 31, 2021 and May 31, 2021. These measures should be considered as a complement to financial performance measures in accordance with IFRS. They do not substitute and are not superior to them.

Additional information relating to Goodfellow Inc., including the Annual Information Form and the Annual Report can be found on SEDAR at www.sedar.com.

#### FORWARD-LOOKING STATEMENTS

This MD&A contains implicit and/or explicit forecasts, as well as forward-looking statements on the objectives, strategies, financial position, operating results and activities of Goodfellow Inc. Forward-looking statements can be identified by words such as: "believe," "estimate," "expect," "strategy," "future," "likely," "may," "should," "will" and similar references to future periods. Examples of forward-looking statements include, among others, statements we make regarding liquidity and risk management in the current economic conditions. Forward-looking statements are neither historical facts nor assurances of future performance. Instead, these statements are forward-looking to the extent that they are based on expectations relative to markets in which the Company exercises its activities and on various assessments and assumptions. Although we believe that the expectations reflected in the forward-looking statements contained in this document, and the assumptions on which such forward-looking statements are made, are reasonable, there can be no assurance that such expectations and assumptions will prove to be correct. Readers are cautioned not to place undue reliance on forward-looking statements included in this document, as there can be no assurance that the plans, intentions or expectations upon which the forward-looking statements are based will occur. Our actual results could differ significantly from management's expectations if recognized or unrecognized risks and uncertainties affect our results or if our assessments or assumptions are inaccurate. These risks and uncertainties include, among other things; the effects of general economic and business conditions including the cyclical nature of our business; industry competition; inflation, credit, currency and interest rate risks; environmental risk; level of demand and financial performance of the manufacturing industry; competition from vendors; changes in customer demand; extent to which we are successful in gaining new long-term relationships with customers or retaining existing ones and the level of service failures that could lead customers to use competitors' services; increased customer bankruptcies; dependence on key personnel; impact of the COVID-19 pandemic and the related climate of uncertainty; laws and regulation; information systems, cost structure and working capital requirements; occurrence of hostilities, political instability or catastrophic events and other factors described in our public filings available at www.sedar.com. For these reasons, we cannot guarantee the results of these forward-looking statements. The MD&A gives an insight into our past performance as well as the future strategies and key performance indicators as viewed by our management team at Goodfellow Inc. The Company disclaims any obligation to update or revise these forward-looking statements, except as required by applicable law.

#### COVID-19

The Company's expectation of operating and financial performance in 2022 is based on certain assumptions including assumptions about the COVID-19 pandemic, such as the duration and impact of the COVID-19 pandemic on the business, operations and financial condition of the Company. These include in particular the assumption that the Company's manufacturing and distribution facilities will remain open and in operation, the assumption that its workforce will remain healthy, the assumption that hardware and lumber stores and other industrial and manufacturing clients will remain open and will continue ordering and selling the Company's products, the assumption that construction activity will not be halted by mandatory closures and the assumption that the Company's supply chain will not be interrupted. The Company's estimates, beliefs and assumptions are inherently subject to significant business, economic, competitive and other uncertainties and contingencies regarding future events, including the COVID-19 pandemic and as such, are subject to change. The Company can give no assurance that such estimates, beliefs and assumptions will prove to be correct.

#### NON-IFRS FINANCIAL MEASURES

(unaudited)

We report our financial results in accordance with IFRS. However, in this document, the following non-IFRS measures, non-IFRS ratios and supplementary financial measures are used: EBITDA, Net Cash Flows from Operating Activities excluding impact of changes in non-cash working capital, income tax paid and interest paid, Gross profit, Gross margin, Shareholders' Equity per share and dividends paid per share. These measures do not have a standardized meaning under IFRS and could be calculated differently by other companies and accordingly, may not be comparable. We believe that many of our readers analyze the financial performance of the Company's activities based on these non-IFRS financial measures as such measures may allow for easier comparisons between periods. The Company also believes that these measures are useful indicators of the performance of its operations and its ability to meet its financial obligations. Furthermore, management also uses some of these non-IFRS financial measures to assess the performance of its activities and managers. These measures should be considered as a complement to financial performance

measures in accordance with IFRS. They do not substitute and are not superior to them. For measures displayed per share, the Company divided the measures by the total number of outstanding shares at May 31 of the period presented.

"EBITDA" represents earnings before income taxes, net financial costs, depreciation of property, plant and equipment and amortization. Management believes this metric is useful as it allows comparability of operating results from one period to another by excluding the effects of items that primarily reflect the impact of long-term investment and financing decisions, rather than the results of day-to-day operations.

The table below contain a reconciliation of EBITDA to the most directly comparable IFRS measure, net earnings.

<sup>&</sup>quot;Net Cash Flows from Operating Activities excluding impact of changes in non-cash working capital, income tax paid and interest paid" represents net cash flows from operating activities before changes in non-cash working capital, income tax paid and interest paid. Management believes this measure is useful as it provides an indication of the Company's financial flexibility, i.e. cash available to the Company to service debt, meet other payment obligations, make investments and execute the Company's strategy.

The tables below contain a reconciliation of Net Cash Flows from Operating Activities excluding impact of changes in non-cash working capital, income tax paid and interest paid to the most directly comparable IFRS measure, Net Cash Flows from Operating Activities.

#### LIQUIDITY AND CAPITAL RESOURCES

#### Financing

In May 2021, the Company renewed its credit agreement with its present lenders, two chartered Canadian banks. The credit agreement has a maximum revolving operating facility of \$90 million maturing in May 2024. In addition, an accordion of \$10 million is available once per fiscal year for a maximum of 150 days only. Funds advanced under these credit facilities bear interest at the prime rate plus a premium and are secured by first ranking security on the universality of the movable and immovable property of the Company. As at May 31, 2022, the Company was compliant with its financial covenants. As at May 31, 2022, under the credit agreement, the Company was using \$66.0 million of its facility compared to \$2.0 million as at November 30, 2021. As at May 31, 2022, the Company has \$0.8 million of issued letters of credits which reduces the availability of its facility compared to \$0.9 million as at November 30, 2021.

The Company's business follows a seasonal pattern with sales activities traditionally higher in the second and third quarter. As a result, cash flow requirements are generally higher during these periods. The current facility is considered by management to be adequate to support its current forecasted cash flow requirements. Source of funding and access to capital is disclosed in detail under LIQUIDITY AND RISK MANAGEMENT IN THE CURRENT ECONOMIC CONDITIONS.

#### Cash Flow

Net cash flow from operating activities for the six months ended May 31, 2022 was \$(57.0) million compared to \$(27.9) million last year. Financing activities during the first six months of fiscal 2022 was \$58.2 million compared to \$26.1 million last year. Investing activities during the six months ended May 31, 2022 was \$(1.9) million compared to \$(0.7) million last year (See Property, plant, equipment, intangible and right-of use assets for more details).

#### LIQUIDITY AND RISK MANAGEMENT IN THE CURRENT ECONOMIC CONDITIONS

The Company's objectives are as follows:

- 1. Maintain financial flexibility in order to preserve its ability to meet financial obligations;
- 2. Maintain a low Debt-to-capitalization ratio to preserve its capacity to pursue its organic growth strategy;
- 3. Maintain financial ratios within covenants requirements;
- 4. Provide an adequate return to its shareholders.

The Company defines its capitalization as shareholders' Equity and debt. Shareholders' Equity includes the amount of paid-up capital in respect of all issued and fully paid common shares together with the retained earnings, calculated on a consolidated basis in accordance with IFRS. Debt includes bank indebtedness reduced by the amounts of cash and cash equivalents. Capitalization represents the sum of debt and Shareholders' Equity.

The Company manages its capital and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust its capital, the Company may adjust the amount of dividends paid to shareholders, issue new shares or repurchase shares under a normal course issuer bid, acquire or sell assets to improve its financial performance and flexibility or return capital to shareholders. The Company's primary uses of capital are to finance increases in non-cash working capital and capital expenditures for capacity expansion. The Company currently funds these requirements out of its internally generated cash flows and credit facilities. The Company's financial objectives and strategy remain substantially unchanged.

The Company is subject to certain covenants on its credit facilities. The covenants include a Debt-to-capitalization ratio and an Interest coverage ratio. The Company monitors the ratios on a monthly basis. The Company currently complies with all externally imposed capital requirements. Other than the covenants required for the credit facilities, the Company is not subject to any externally imposed capital requirements. The Company believes that all its ratios are within reasonable limits, in light of the relative size of the Company and its capital management objectives.

As at May 31, 2022 and 2021 and November 30, 2021, the Company achieved the following results regarding its capital management objectives:

	As at	As at	As at
Capital management	May 31	November 30	May 31
- Cupital management	2022	2021	2021
Debt-to-capitalization ratio	28.5%	3.5%	30.9%

<sup>(1)</sup> Non-IFRS financial measure – refer to section "Non-IFRS Financial Measures" for more information and a reconciliation to the most directly comparable IFRS measure.

These measures are not prescribed by IFRS and are defined by the Company as follows:

- Debt-to-capitalization ratio represents debt over total Shareholders' Equity, expressed as a percentage. Debt is defined as bank indebtedness less cash and cash equivalents. Capitalization is debt plus Shareholders' Equity. This ratio excludes lease liabilities under IFRS 16 to conform to the bank's covenant requirement.
- Interest coverage ratio represents the EBITDA during the period for which the calculation is made over interest expenses for the same period on a consolidated basis, calculated on a rolling four-quarter basis. This ratio excludes interest expense related to lease liabilities under IFRS 16 to conform to the bank's covenant requirement.
- Return on Shareholders' Equity is the net earnings (loss) divided by Shareholders' Equity, expressed as a percentage.
- Current ratio is total current assets divided by total current liabilities.
- EBITDA represents earnings before income taxes, net financial costs, depreciation of property, plant and equipment and amortization.

#### **Cost Structure, Working Capital Requirements**

At May 31, 2022, the Company's Debt-to-capitalization ratio stood at 28.5% compared to 3.5% as at November 30, 2021.

For further information, the principal risk factors to which the Company is exposed are described in the Management's Report contained in its Annual Report for the year ended November 30, 2021 as well as in the 2021 Annual Information Form available on SEDAR (www.sedar.com).

#### FINANCIAL COMMITMENTS AND CONTINGENCIES

Obligations	Payments due by po	Payments due by period (in thousands of dollars) - undiscounted						
	Total	Total Less than 2-3 4-5 After

Purchase obligations	226	226	-	-	-			
<b>Total obligations</b>	20,596	5,703	8,183	4,165	2,545			

#### Contingent liabilities

During the normal course of business, certain product liability and other claims have been brought against the Company and, where applicable, its suppliers. While there is inherent difficulty in predicting the outcome of such matters, management has vigorously contested the validity of these claims, where applicable, and based on current knowledge, believes that they are without merit and does not expect that the outcome of any of these matters, in consideration of insurance coverage maintained, or the nature of the claims, individually or in the aggregate, would have a material adverse effect on the consolidated financial position, results of operations or future earnings of the Company.

#### RISKS AND UNCERTAINTIES

The risks and uncertainty factors affecting the Company in the future remain substantially unchanged from those included in the Company's Annual MD&A contained in its 2021 Annual report. Only those factors with variability components are described below:

#### **Dependence on Major Customers**

The Company does not have long-term contracts with any of its customers. Distribution agreements are usually awarded annually and can be revoked. Only one major customer exceeds 10% of total Company sales during the three months and six months ended May 31, 2022 (same last year).

The following represents the total sales consisting primarily of various wood products of the major customer:

	Fo	r the thre	e months end	led		For the six months ended		
(in thousands of dollars)	May 3	31, 2022	May 3	31, 2021	May	31, 2022	May	31, 2021
	\$	%	\$	%	\$	%	\$	%
Sales to the major customer that exceeded 10% of total Company's sales	25,627	13.9	30,030	16.2	44,131	14.0	49,803	16.3

The loss of any major customer could have a material effect on the Company's results, operations and financial position. The carrying amounts of financial assets represent the maximum credit exposure.

#### FINANCIAL INSTRUMENTS AND OTHER INSTRUMENTS

The financial instruments and other instruments remain substantially unchanged from those included in the Company's Annual MD&A contained in its 2021 Annual report. Only those factors with variability components are described below:

The following are the contractual maturities of financial liabilities as at May 31, 2022: (in thousands of dollars)

Financial Liabilities				
	Carrying Amount	Contractual cash flows	0 to 12 Months	12 to 36 Months

Total financial liabilities	47,143	47,143	47,143	_			

#### Interest Rate Risk

The Company uses a credit facility to finance working capital requirements. The interest cost of this facility is dependent upon Canadian and US bank prime rates as well as the Company's Debt-to-capitalization ratio. The profitability of the Company could be adversely affected with increases in the bank prime rate. Management does not believe that the impact of interest rate fluctuations will be significant on its operating results. A 1% fluctuation of interest rate on the \$72.3 million as at May 31, 2022 (\$9.2 million as at November 30, 2021) in bank indebtedness would impact interest expense annually by \$0.7 million as at May 31, 2022 (\$0.1 million as at November 30, 2021).

#### Currency Risk

Certain valuation risks exist depending on the performance of the Canadian dollar compared to the U.S. dollar, Euro and the Pound sterling. From time-to-time, the Company could enter into forward exchange contracts to hedge certain accounts payable and certain future purchase commitments denominated in U.S. dollars, Euros and Pound sterling. During the six months ended May 31, 2022, the Company did not use foreign exchange

contracts to mitigate its effect on sales and purchases. Consequently, as at May 31, 2022 there were no outstanding foreign exchange contracts. A fluctuation in the Canadian dollar of 5% in relation to foreign currencies would not have a significant effect on the Company's net earnings.

As at May 31, 2022, the Company had the following currency exposure on:

#### Financial assets and liabilities measured at amortized costs

#### Credit Risk

The Company is exposed to credit risks from customers. As a result of having a diversified customer mix, this risk is alleviated by minimizing the amount of exposure the Company has to any one customer. Additionally, the Company has a system of credit management to mitigate the risk of losses due to insolvency or bankruptcy of its customers. It also utilizes credit insurance to reduce the potential for credit losses. Finally, the Company has adopted a credit policy that defines the credit conditions to be met by its customers, and specific credit limit for each customer is established and regularly revised. Based on historical payment behaviour and current credit information and experience available, the Company believes that, apart from provision for doubtful accounts recorded, no impairment allowance is necessary in respect of trade receivables that are current or past due. The Company does not have long-term contracts with any of its customers. Distribution agreements are usually awarded annually and can be revoked. In its assessment of the loss allowance for credit losses as at May 31, 2022, the Company considered the economic impact of the COVID-19 pandemic on its assessment. This was not considered to be significant.

The following table presents information on credit risk exposure and expected credit losses related to trade accounts receivable: (in thousands of dollars)

	As at	As at	As at
	May 31	November 30	May 31
	2022	2021	2021
	\$	\$	\$

Balance, end of period	101,430	63,085	107,651

As at May 31, 2022, expected credit losses are limited to \$231 thousand and therefore, the expected credit losses by trade accounts receivable aging have not been presented separately in the table above.

#### Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is based on available public market information or, when such information is not available, is estimated using present value techniques and assumptions concerning the amount and timing of future cash flows and discount rates which factor in the appropriate level of risk for the instrument. The estimated fair values may differ in amount from that which could be realized in an immediate settlement of the instruments. The carrying amounts of cash, trade and other receivables, bank indebtedness, trade and other payables and lease liabilities approximate their fair values.

#### RELATED PARTY TRANSACTIONS

The related party transactions remain substantially unchanged from those included in the Company's Annual MD&A contained in its 2021 Annual report.

#### CRITICAL ACCOUNTING ESTIMATES

The critical accounting estimates remain substantially unchanged from those included in the Company's Annual MD&A contained in its 2021 Annual report.

#### SIGNIFICANT ACCOUNTING POLICIES

The Company's significant accounting policies applied in the Company's interim financial statements are the same as those described in Note 3 contained in its 2021 Annual consolidated financial statements.

#### DISCLOSURE OF OUTSTANDING SHARE DATA

At May 31, 2022, there were 8,562,554 common shares issued (same at November 30, 2021 and May 31, 2021). The Company has authorized an unlimited number of common shares to be issued, without par value. At July 7, 2022, there were 8,562,554 common shares outstanding.

#### OUTLOOK

While Goodfellow has had a strong first half of the year, seasonal demand in Q3 and Q4 is not expected to be as high as the previous fiscal periods due to downward pressure caused by the effects of rising inflation. Further economic measures to stifle inflation in Canada and the US may not be enough to avoid a recession in the near-term. Mitigating measures will be implemented at Goodfellow to protect its balance sheet for the duration of such a recession, while also continuing to pursue positive returns for its shareholders.

### COVID-19

The duration and impact of the COVID-19 pandemic on the Company are unknown at this time. As such, it is not possible to reliably estimate the length and severity of the COVID-19's related impacts on the financial results and operations of the Company. The Company continues to closely monitor the situation as it evolves day-to-day and may take further actions in response to the directives of the government and public health authorities or that are in the best interests of its colleagues, customers, suppliers or other stakeholders, as necessary. The Company has already taken and will continue to take swift actions to mitigate the effects of COVID-19 on its day-to-day business operations, with the best interests of its employees, customers, suppliers and other stakeholders at the crux of every action taken.

These changes and any additional changes in operations in response to COVID-19 could materially impact financial results and may include temporary closures of facilities, temporary or long-term labour shortages or disruptions, temporary or long-term impacts on supply chains and distribution channels, temporary or long-term restrictions on cross-border commerce and travel, greater currency volatility, and increased risks to IT systems, networks and digital services. Uncertain economic conditions resulting from the COVID-19 outbreak may, in the short or long term, adversely impact operations and the financial performance of the Company. The spread of COVID-19 has caused an economic slowdown and increased volatility in financial markets. Governments and central banks have responded with monetary and fiscal interventions intended to stabilize economic conditions. However, it is not currently known how these interventions will impact debt and equity markets or the economy generally. Although the ultimate impact of COVID-19 on the global economy and its duration remains uncertain, disruptions caused by COVID-19 may adversely affect the performance of the Company. Uncertain economic conditions resulting from the COVID-19 outbreak may, in the short or long term, adversely impact demand for the Company's products and/or the debt and equity markets, both of which could adversely affect the Company's financial performance. Governmental interventions aimed at containing COVID-19 could also impact the Company's available workforce, its supply chain and distribution channels and/or its ability to engage in cross-border commerce, which could in turn adversely affect the operations or financial performance of the Company.

#### CERTIFICATION

#### **Disclosure Controls**

Management is responsible for establishing and maintaining a system of disclosure controls and procedures to provide reasonable assurance that all material information relating to the Company and its subsidiaries is gathered and reported to senior management on a timely basis so that appropriate decisions can be made regarding public disclosure.

#### **Procedures and Internal Controls Over Financial Reporting**

Management is responsible for establishing and maintaining adequate internal controls over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial reports for external purposes in accordance with IFRS.

In designing such controls, it should be recognized that due to inherent limitations, any controls, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives and may not prevent or detect misstatements. Projections of any evaluations of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Additionally, management is required to use judgment in evaluating controls and procedures.

There has been no change in the Company's internal control over financial reporting that occurred during the three and six months ended May 31, 2022 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

#### NOTICE OF NO AUDITOR REVIEW OF INTERIM FINANCIAL STATEMENTS

Under National Instrument 51-102 "Continuous Disclosure Obligations", if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The Company's independent auditors, KPMG LLP, has not performed a review of these financial statements in accordance with standards established by the CPA Canada for a review of interim financial statements by an entity's auditor.

The accompanying unaudited interim consolidated financial statements of the Company have been prepared by and are the responsibility of the Company's management.

#### 1. Status and nature of activities

Goodfellow Inc. (hereafter the "Company"), incorporated under the *Canada Business Corporations Act*, carries on various business activities related to remanufacturing and distribution of lumber and wood products. The Company's head office and primary place of business is located at 225 Goodfellow Street in Delson (Quebec), Canada, J5B 1V5.

The interim consolidated financial statements of the Company as at and for the six months ended May 31, 2022 and 2021 include the accounts of the Company and its wholly-owned subsidiaries.

#### 2. Basis of preparation

#### Statement of compliance

The interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Boards ("IASB"). These interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended November 30, 2021, as set out in the 2021 annual report. Certain comparative figures have been reclassified to conform to the current year's presentation.

These interim consolidated financial statements were authorized for issue by the Board of Directors on July 7, 2022.

These interim consolidated financial statements are available on the SEDAR website at <a href="www.sedar.com">www.sedar.com</a> and on the Company's website at <a href="www.sedar.com">www.sedar.com</a> and on the Company's website at <a href="www.sedar.com">www.sedar.com</a>.

#### Estimates, Judgments and Assumptions

The preparation of the interim consolidated financial statements in compliance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates are based on management's best knowledge of current events and actions that the Company may undertake in the future. Estimates are volatile by their nature and are continuously monitored by management. Actual results may differ from these estimates.

In preparing these interim consolidated financial statements, the significant judgements made by management in applying the Company's accounting policies and key sources of estimation of uncertainty were the same as those applied and described in the Company's audited annual consolidated financial statements for the year ended November 30, 2021.

#### 3. Significant Accounting Policies

The Company's significant accounting policies described in Note 3 contained in its 2021 Annual consolidated financial statements have been applied consistently in the preparation of these unaudited interim consolidated financial statements.

In May 2021, the Company renewed its credit agreement with its present lenders, two chartered Canadian banks. The credit agreement has a maximum revolving operating facility of \$90 million maturing in May 2024. In addition, an accordion of \$10 million is available once per fiscal year for a maximum of 150 days only. Funds advanced under these credit facilities bear interest at the prime rate plus a premium and are secured by first ranking security on the universality of the immovable and movable property of the Company. As at May 31, 2022, the Company was compliant with its financial covenants. As at May 31, 2022, under the credit agreement, the Company used \$66.0 million of its facility compared to \$2.0 million as at November 30, 2021, and \$57.0 million as at May 31, 2021. As at May 31, 2022, the Company has \$0.8 million of issued letters of credits which reduces the availability of its facility compared to \$0.9 million as at November 30, 2021, and \$1.2 million as at May 31, 2021.

#### 9. Provision

The Company's St-André (QC) site shows continued traces of surface contamination from previous treating activities exceeding existing regulatory requirements. The Company received approval for the environmental rehabilitation plan in fiscal 2016. The Company started to implement its plan during fiscal 2016 and treatment of soil on-site was to be performed over an estimated period of 5 years. The remaining rehabilitation was expected to occur in fiscal 2020. Unfortunately, because of the duration and impact of the COVID-19 pandemic no work was performed in fiscal 2020. The Company continued its rehabilitation plan in fiscal 2021, with further work to be performed in 2022. In the second quarter of 2022, the Company has submitted for approval to the Minister of the environment a revised timetable for the site remediation.

(tabular amounts are in thousands of dollars, except per share amounts)

Based on current available information, the provision is considered by management to be adequate to cover any projected costs that could be incurred in the future.

Because of the nature of the liability, the biggest uncertainty in estimating the provision is the amount of soil to be treated and the costs that will be incurred to remove it. Changes in estimates of future expenditures are the result of periodic reviews of the underlying assumptions supporting the provision, including remediation costs and regulatory requirements.

#### 11. Seasonal Pattern

The Company's business follows a seasonal pattern with sales activities traditionally higher in the second and third quarters. As a result, a higher share of total earnings is typically earned in the second and third quarter.

#### 12. Financial Instruments and other instruments

Risk Management

The Company is exposed to financial risks that arise from fluctuations in interest rates and foreign exchange rates and the degree of volatility of these rates.

Financing and Liquidity Risk

The Company makes use of short-term financing with two chartered Canadian banks.

The following are the contractual maturities of financial liabilities as at May 31, 2022:

Financial Liabilities				
	Carrying Amount	Contractual cash flows	0 to 12 Months	12 to 36 Months

Total financial liabilities	118,196	118,196	118,196	-		

Interest Rate Risk

The Company uses a credit facility to finance working capital requirements. The interest cost of this facility is dependent upon Canadian and US bank prime rates as well as the Company's Debt-to-capitalization ratio. The profitability of the Company could be adversely affected with increases in the bank prime rate. Management does not believe that the impact of interest rate fluctuations will be significant on its operating results. A 1% fluctuation of interest rate on the \$72.3 million as at May 31, 2022, \$9.2 million as at November 30, 2021, and \$63.3 million as at May 31, 2021 in bank indebtedness would impact interest expense annually by \$0.7 million (November 30, 2021 - \$0.1 million; May 31, 2021 - \$0.6 million).

#### Currency Risk

Certain valuation risks exist depending on the performance of the Canadian dollar compared to the U.S. dollar, Euro and the Pound sterling. From time-to-time, the Company could enter into forward exchange contracts to hedge certain accounts payable and certain future purchase commitments denominated in U.S. dollars, Euros and Pound sterling. During the six months ended May 31, 2022, the Company did not use foreign exchange contracts to mitigate its effect on sales and purchases. Consequently, as at May 31, 2022 there were no outstanding foreign exchange contracts. A fluctuation in the Canadian dollar of 5% in relation to foreign currencies would not have a significant effect on the Company's net earnings.

#### Credit Risk

The Company is exposed to credit risks from customers. As a result of having a diversified customer mix, this risk is alleviated by minimizing the amount of exposure the Company has to any one customer. Additionally, the Company has a system of credit management to mitigate the risk of losses due to insolvency or bankruptcy of its customers. It also utilizes credit insurance to reduce the potential for credit losses. Finally, the Company has adopted a credit policy that defines the credit conditions to be met by its customers, and specific credit limit for each customer is established and regularly revised. Based on historical payment behaviour and current credit information and experience available, the Company believes that, apart from provision for doubtful accounts recorded, no impairment allowance is necessary in respect of trade receivables that are current or past due. The Company does not have long-term contracts with any of its customers. Distribution agreements are usually awarded annually and can be revoked. In its assessment of the loss allowance for credit losses as at May 31, 2022, the Company considered the economic impact of the COVID-19 pandemic on its assessment. This was not considered to be significant.

(tabular amounts are in thousands of dollars, except per share amounts)

The following table presents information on credit risk exposure and expected credit losses related to trade accounts receivable:

Loss allowance	(231)	(170)	(143)
Balance, end of period	101,430	63,085	107,651

As at May 31, 2022, expected credit losses are limited to \$231 thousand and therefore, the expected credit losses by trade accounts receivable aging have not been presented separately in the table above.

#### Economic Dependence

Only one major customer exceeds 10% of total Company sales during the three months and six months ended May 31, 2022 (same last year). The following represents the total sales consisting primarily of various wood products of the major customer:

	For th	ne three	months en	ded	For	the six	months e	nded
	May 31	, 2022	May 31	, 2021	May 31	, 2022	May 3	31, 2021
	\$	%	\$	%	\$	%	\$	%
Sales to the major customer that exceeded 10% of total Company's sales	25,627	13.9	30,030	16.2	44,131	14.0	49,803	16.3

The loss of any major customer could have a material effect on the Company's results, operations and financial position. The carrying amounts of financial assets represent the maximum credit exposure.

#### Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is based on available public market information or, when such information is not available, is estimated using present value techniques and assumptions concerning the amount and timing of future cash flows and discount rates which factor in the appropriate level of risk for the instrument. The estimated fair values may differ in amount from that which could be realized in an immediate settlement of the instruments. The carrying amounts of cash, trade and other receivables, bank indebtedness, trade and other payables and lease liabilities approximate their fair values.

#### 14. Capital management

The Company's financial objectives and strategy remain substantially unchanged from those included in the Company's annual consolidated financial statements contained in its 2021 Annual report.

Unaudited

For the three and six months ended May 31, 2022 and 2021

(tabular amounts are in thousands of dollars, except per share amounts)

As at May 31, 2022 and 2021 and November 30, 2021, the Company achieved the following results regarding its capital management objectives:

	As at	As at	As at
Conital management	May 31	November 30	May 31
Capital management	2022	2021	2021
Debt-to-capitalization ratio	28.5%	3.5%	30.9%
Interest coverage ratio	24.7	26.2	23.4
Return on Shareholders' Equity	20.2%	23.5%	26.0%
Current ratio	2.1	2.9	1.8
EBITDA (in thousands of dollars)	\$29,617	\$60,531	\$29,702

These measures are not prescribed by IFRS and are defined by the Company as follows:

- Debt-to-capitalization ratio represents debt over total Shareholders' Equity, expressed as a percentage. Debt is defined as bank
  indebtedness less cash and cash equivalents. Capitalization is debt plus Shareholders' Equity. This ratio excludes lease liabilities
  under IFRS 16 to conform to the bank's covenant requirement.
- Interest coverage ratio represents the EBITDA during the period for which the calculation is made over interest expenses for the same period on a consolidated basis, calculated on a rolling four-quarter basis. This ratio excludes interest expense related to lease liabilities under IFRS 16 to conform to the bank's covenant requirement.
- Return on Shareholders' Equity is the net earnings (loss) divided by Shareholders' Equity, expressed as a percentage.
- Current ratio is total current assets divided by total current liabilities.
- EBITDA represents earnings before income taxes, net financial costs, depreciation of property, plant and equipment and amortization.

#### 15. Segmented Information and Sales

The Company manages its operations under one operating segment. Revenues are generated from the sale of various wood products and operating expenses are managed at the aggregate Company level. All significant property, plant and equipment, and right-of-use assets are located in Canada.

The following table presents sales disaggregated by geographic markets and by categories, as this best depicts how the nature, amount, timing and uncertainty of sales and cash flows are affected by economic factors.

Primary geographic markets

The Company's sales to clients located in Canada represent approximately 88% (89% in 2021) of total sales, the sales to clients located in the United States represent approximately 8% (7% in 2021) of total sales, and the sales to clients located in other markets represent approximately 4% (same in 2021) of total sales.
